

## Health Care Access: No Health Insurance

### Definition:

Individuals age 18 and older who stated “No” to the following question, “Do you have any kind of health care coverage, including health insurance, prepaid plans such as HMOs, or government plans such as Medicare?”

	2004
Nation	14.8%
State	14.9%
Region	N A

- The state rate for self-report no health insurance is now equal to the national rate.
- While the national trend appears to be rising, the state and regional trend could be lowering, coming more in line with the national trend.
